

# monitor for the disperse state of powders - *Aello 6000* applications

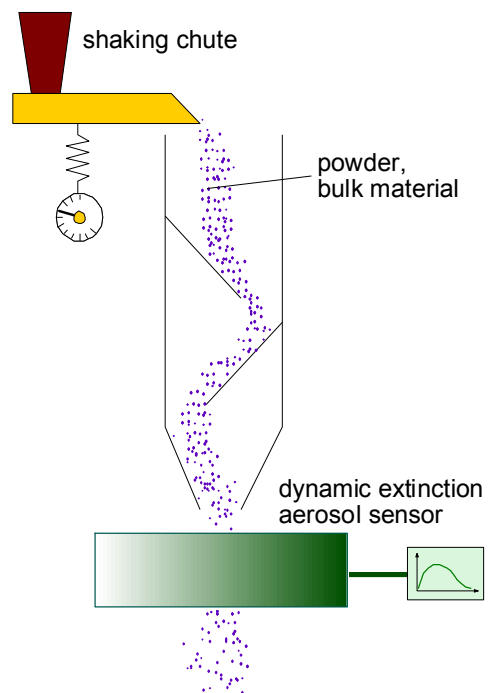

## Applications

- Measurement of particle size and concentration in a flow of bulk materials or powder
- Monitoring dosing systems for powders
- Control of dispersed state and the mass flow of powders
- In-line quality control

## *Aello 9000* – Probe for Characterization of Aerosols

## Scheme of dosing system with a shaking chute and the dynamic extinction sensor

## Exemplary measuring result:
